Suspect Peterson

Infor Mike/F

Contacted by a Detective Larry Patterson, Wayne County Sheriff's Department, Homicide Division in ref. to Campbell murder.

States that a bartender (name unk) had come to him with info. that a Rbt. Segwart Peterson, DOB 11-9-53 of 435 Berkley St., Dearborn Mich, had made some statements in his bar.

Peterson stated that he was in Aspen at the time of Campbell's disappearance, that he had known Campbell before. That she had been sexually assaulted and we (Colo) would find another body.

Patterson & FBI Agent Jack Jackson interviewed Peterson at Wayne County Sheriff's Dept. Patterson states that suspect was very paranoid and kept stating that every one was against him because he was good looking and athletic, that people were jealous of him. Therefore always trying to get him in trouble. Suspect states he was in Aspen during January ar. 18th. Suspect denied ever making statements about knowing Campbell or any statements about the assault or finding another body in Colo.

Patterson checked with suspect's mother and she confirmed suspect was in Colo. skiing. She also states that he was out of town again approx. 15 March 1975 skiing.

Patterson states that he feels that suspect should be investigated further because of his attitude. He will attempt to trace

suspect to ascertain where he did go skiing on 15 March 75 - will talk to other people in ski club for dates and background info.

Also will attempt to have poly run on suspect. Will contact D/Sgt. Paul Berrett, Mich. State Police for background info. Fisher advised that State Police poly operators had already run 2 suspects for us and they may be able to run suspect Peterson. Patterson will advise results of his investigation.
